FREE training – Space is Limited

Please call NAMI office at 815-308-0851 to register

Now more than ever, legislators need to hear from their constituents about what is important for them to fund. Illinois continues to lose or reduce services every year because mental health has not been a top funding priority. The only way to make it a top priority is for people to start making issues known to the legislators who serve them. Come learn how you can become an effective advocate and gain the confidence to have your voice heard.
